

SERVICE-LEARNING: COVID-19 CHECKLIST

This checklist is intended for faculty who teach service-learning courses. In preparation for teaching a service-learning course, Nazareth College requires that you ensure that:

the community partner adheres to the CDC and NYS-DOH health and safety guidelines on face coverings, social distancing and sanitizing.

Nazareth College students adhere to additional requirements specific to the community partner.

the community partner does not fall under the vulnerable populations category for COVID-19, i.e. the elderly and people living in nursing homes, prisons, etc. If it does, in-person service-learning is prohibited.

you frequently check in with students, if they report signs of illness, they need to contact Health and Counseling Services at 585-389-2500. If after-hours, contact Campus Safety or [visit this link for information on care after-hours](#).

you notify the Center for Service Learning if you wish to use a face shield with your face mask or need additional sanitizers.

Faculty: I have read and understood this checklist.
