- Sessions will be held in Golisano Academic Center and Smyth Hall
- Opening, closing, and lunch will be held Shults
- Purple indicates walking paths

HICKEY CENTER & IIIT CHAIR FOR INTERFAITH STUDIES AND DIALOGUE

The Hickey Center & IIIT Chair for Interfaith Studies and Dialogue promotes understanding through education, meaningful dialogue, and community-building. We help people explore how we can live peacefully and respectfully in a world shaped by many different religious and cultural traditions.

Across faiths and cultures, we share a common desire to alleviate suffering and create a better world. While traditions may offer different ways of understanding and pursuing these goals, we believe there is much we can learn from one another. By listening, building relationships, and engaging in respectful dialogue, we can deepen our understanding of one another and work together toward the common good.

The Global Citizenship Conference is a daylong conference organized for high school students, designed to give the future leaders of our world important tools.

What is a Global Citizen? One who has the tools to respond to religious, racial, and cultural intolerance while improving religious and cultural literacy and acquiring the etiquette necessary to work in a pluralistic world.

COME & SHARE A CUP OF TEA!

"Tea with Shafiq" is a special series held at Nazareth University where students, faculty, staff get together to build community. People share a cup of tea and engage in a meaningful conversation.

We discuss, and reflect, to build a community of understanding by encouraging open, and respectful discussion.
