Biology						
97584	BIO*151*02	Anatomy & Physiology II	3.00	MWF	10:30AM - 11:20AM	Dodge
Course Codes: BR. Required for all Nursing, Occupational Therapy, Clinical Lab Science, and Physical Therapy majors. Prereq: BIO 150/150L or equivalent completed with a grade of C- or higher within the last 5 years. Selected allied health programs/majors have grading requirements that are more stringent than those noted here. Coreq: BIO 151L. Normal Offering cycle: Fall and Summer B (summer B online).						
97585	BIO*151*03	Anatomy & Physiology II	3.00	TTH	09:25AM - 10:40AM	Witz
Course Codes: BR. Required for all Nursing, Occupational Therapy, Clinical Lab Science, and Physical Therapy majors. Prereq: BIO 150/150L or equivalent completed with a grade of C- or higher within the last 5 years. Selected allied health programs/majors have grading requirements that are more stringent than those noted here. Coreq: BIO 151L. Normal Offering cycle: Fall and Summer B (summer B online).						
97586	BIO*151L*01	Anat & Physlgy Lab II	1.00	T	01:10PM - 03:50PM	Witz
Course Codes: BR. Required for all Nursing, Occupational Therapy, Clinical Lab Science, and Physical Therapy majors. Prereq: BIO 150/150L or equivalent completed with grade of C- or higher within the last 5 years. Selected allied health programs/majors have grading requirements that are more stringent than those noted here. Coreq: BIO 151. The on-campus version of this course may only be available to allied health program students depending on the section. Additional lab fee required. Normal Offering Cycle: Spring and Summer B cycle (Summer B online).						
97587	BIO*151L*02	Anat & Physlgy Lab II	1.00	W	01:30PM - 04:20PM	Opett
Course Codes: BR. Required for all Nursing, Occupational Therapy, Clinical Lab Science, and Physical Therapy majors. Prereq: BIO 150/150L or equivalent completed with grade of C- or higher within the last 5 years. Selected allied health programs/majors have grading requirements that are more stringent than those noted here. Coreq: BIO 151. The on-campus version of this course may only be available to allied health program students depending on the section. Additional lab fee required. Normal Offering Cycle: Spring and Summer B cycle (Summer B online).						
97589	BIO*151L*04	Anat & Physlgy Lab II	1.00	F	01:30PM - 04:20PM	Hagen
Course Codes: BR. Required for all Nursing, Occupational Therapy, Clinical Lab Science, and Physical Therapy majors. Prereq: BIO 150/150L or equivalent completed with grade of C- or higher within the last 5 years. Selected allied health programs/majors have grading requirements that are more stringent than those noted here. Coreq: BIO 151. The on-campus version of this course may only be available to allied health program students depending on the section. Additional lab fee required. Normal Offering Cycle: Spring and Summer B cycle (Summer B online).						
97590	BIO*151L*30	Anat & Physlgy Lab II	1.00	TH	04:00PM - 06:40PM	Voelkl
Course Codes: BR. Required for all Nursing, Occupational Therapy, Clinical Lab Science, and Physical Therapy majors. Prereq: BIO 150/150L or equivalent completed with grade of C- or higher within the last 5 years. Selected allied health programs/majors have grading requirements that are more stringent than those noted here. Coreq: BIO 151. The on-campus version of this course may only be available to allied health program students depending on the section. Additional lab fee required. Normal Offering Cycle: Spring and Summer B cycle (Summer B online).

-------	------------	-----------------------------	------	---------	--	-----------------

Course Codes: R. Special/Selected Topics. Special Topics course description: The scope of this course is to introduce students to Italian women writers of the 20th century. Prose works by Oriana Fallaci, Gina Lagorio, Clara Cardella, Cristina Comencini and Alba De Cespedes will be accompanied by the writings of women poets from the Renaissance to contemporary times, such as Compiuta Donzella, Veronica Gambara, Gaspara Stampa, Veronica Franco, Cristina Trivulzio Belgiojosa, Ada Negri e Sibilla Aleramo. This course will explore issues related to constructions of gender in contemporary Italian narrative and cinema. We will analyze the works from a variety of perspectives and applying different theoretical tools, including feminism and film theory. For a better understanding of the material, each work will be placed within its respective political and social context, thus the reading of Procacci's Storia degli Italiani, and cinematographic adaptation of some of the works will be screened in class. Bringing novels, films and history together allows students to participate in a richer discussion of the subject matter. Also, please note the Monday night meeting is taught in Italian and the Wednesday night meeting is taught in English.

98178	MTH*390*01	ST Dynamical Systems	3.00	TTH	10:50AM - 12:05PM	Boyd
Course Codes: BR. Prereq: MTH*220 or permission of the instructor. Chaos, the study of unpredictable deterministic dynamical systems, can be used to describe planetary motion, population growth, epidemiology, earthquake prediction, computer algorithms and stock market prices. Investigations of chaos lead naturally to the fractal geometry of infinitely detailed shapes. We will analyze famous fractals and create original fractal artwork. This work involves iterative processes, exponential functions and limits, algorithms, and computations of area and perimeter of increasingly complex figures. Topics include iteration, orbits, graphical analysis, fixed and periodic points, bifurcations, symbolic dynamics, complex functions, Newton's method, Julia and Mandelbrot sets, the metric space of fractals, iterated function systems, the collage theorem, similarity, fractal dimension, L-systems. Prerequisite: MTH.Q 113 Calculus I or MTH.Q 111 Applied Calculus or equivalent						
98180	MTH*479*01	Student Tch MidSch SrHigh	6.00			Juersivich
