<https://www2.naz.edu/library/help/technology-training-and-support/> / This online section of the CME requires that you have access to the technology to use Skype or come to campus for one-on-one meetings. Other course work can be completed outside these times. The course begins May 16th and will end on Friday June 17th. The Core Milestone Experience is your chance to reflect on and create and original project based on what you've learned while fulfilling the requirements of the liberal arts core, with particular emphasis on your IS courses and experiential learning experience. This is NOT a class about writing a big research paper, taking tests, or figuring out what the professor "wants". Instead, you will choose a big idea and an associated "messy" or enduring question to explore through a creative project that you design and that draws on your coursework and other interests. The project you do for this course will be uploaded to your portfolio and will represent the culmination of your Uncommon Core course work.
