CSI: Mystery at Hogwarts

There has been a disappearance at Hogwarts and the young witches and wizards have to solve the mystery. Using science and good observations, the students must determine who was the guilty party! They may even meet a real forensic specialist during the week! This camp is for students who love investigations and the stories of Harry Potter.
Students will learn how to collect evidence, guard against contamination of their samples, map the crime scene, and document the chain of custody for the evidence. CSI: Mystery at Hogwarts is offered to students between the ages of 9-13.
