

2019 Science Summer Camp

What is Science Camp? The Summer Science Camp hosted by Nazareth College is designed to generate enthusiasm and interest for science, math, and technology for all students.

NEW—MASTER CLASS IN HARRY POTTER WIZARDRY-

This camp is for the experienced camper who cannot get enough Harry Potter and Science! Professor Tracy has created some new and exciting activities especially for the advanced student. Campers will be doing more sophisticated science experiments and conjuring up new spells! **This camp is for ages 11-15.**

SUPERHERO SCIENCE

Have you ever wanted to be a superhero? How about take down nasty villains with your superpowers? Well, then this is the camp for you! We are going to use the good of science to help us defeat the evil villains. We will use Science to study super strength, super speed, and many more super powers. A villain may conjure a storm or freeze you in a block of ice! When it comes to superheroes and superpowers anything can happen! Are you ready to find out what will? **This camp is for ages 6-13**

MYSTERY AT HOGWARTS

There has been a disappearance at Hogwarts and the young witches and wizards have to solve the mystery. Using science and good observations, the students must determine who was the guilty party! They may even meet a real forensic specialist during the week! This camp is for students who love investigations and the stories of Harry Potter. **This camp is for ages 8-13**

MAGIC OF HARRY POTTER

The "School of Wizardry" is in session and invites all young wizards to a magical adventure. The faculty of Hogwarts will be instructing you on potions (inks, slime, and paints), building and launching of rockets, and many more fun activities—indoors and out. All materials and equipment (wands, cauldrons, and ingredients for your favorite wizard brew) are provided. Parents are reminded that young wizards should not bring their own wands or brooms to this camp! **This camp is for ages 6-13**
